Comments Report

5. Open Ended

5.1) The instructor (please comment on questions 4.1-4.7 above)

- For me everything she did was very helpful for me. I did not know how to approach my final paper, and her advised was essential, and she always gave great feedback that I found extremely useful. She was a clear guide for me, we as a group were able to understand what we were seeing thanks to his guide. Students need a guide in the class, and she accomplished that job perfectly.
- Her enthusiasm and knowledge of the subject made the class very welcoming. She was always available to talk to students and help them with any challenge they had. She provided useful feedback which helped me improve my writing in general.
- I really like
- Melissa was an extraordinary professor and she was always conscious that we are students but colleagues at the same time. She was patient and open minded.
- My professor was very highly motivated and came to class very prepared to deliver. On the whole she did an excellent job and I will recommend her over and over again. She is the best by far.
- She was really kind and helpful to me when I was lost. She cleared things up when I was confused. She did an awesome job giving us background information before we read a play.
- The instructor was extremely helpful, fun, and she made everything easier for us in regards to the content we were looking at. She made the classes entertaining, interactive, and we took part of different activities and with different classmates. She created a relaxed and good atmosphere and connected with us, and I wish we could have her as a professor for other literature classes this year as well!
- The professor was always available for our questions, she encouraged us time and time again to ask questions during class or outside the classroom. She has always come incredibly prepared for class which led to deep and interesting lectures and debates regarding Golden Age Spanish literature and history. The professor was more of a guide during the classes. She gave a few lectures and then the classes were completely student centered, of course, with her guidance not to go off topic. She has been demanding in the quality of our work but understanding and patient.
- Very encouraging, perfect learning environment, I really enjoyed being in this class! Melissa is an agreeable and knowledgeable professor

5.2) The course and the materials (please comment on questions 4.8-4.10 above)

- At the beginning it was really challenging since we had to read old Spanish but with the help of Melissa we improved a lot our understanding of the plays that we were reading.
I extremely enjoyed how she presented theory and history in a clear and organized way. One of the things that I enjoyed the most was when she introduced every topic since we learned a lot of useful information for the comps.
- Even though I enjoyed the content of the course a lot and I learned a great amount of information regarding the Golden Age, I would appreciate more readings outside of the stereotypes and the comedia, as I feel it was too specific for me to have a general idea of what Golden Age was that could help me during my comprehensive exams.
- For me this course was very interesting since we saw the minorities in the Spanish cultures and those are things I never thought about. And for me personally it was great to know about all those minorities and what they went through. Also, for my academic life it was interesting to know this minorities to be able to mentioned them and acknowledge them in my future papers and classes. The papers we had to do were very helpful, to prepare ourselves for the final project and also to practice for future papers.
- I appreciated that I did not have to purchase course materials for this class. The class was very interesting and I enjoyed the presentations that we did. Although this is not my strong suit, I enjoyed the topics we covered.
- I enjoy with the materials and with the lectures
- I loved all the materials we read and commented in class. All the topics where super interesting and the fact that this class was relaxed but exigent at the same time has made me learn but also be comfortable in class to express ideas
- The course materials were very appropriate and in line with the course. The articles were excellent and have even helped me in other classes I take.
- The course was intellectually challenging and the materials were fit the course structure.
- The teacher searched for all materials herself and I think they were very appropriate to what we were doing, they were helpful and well done. She also gave us presentations on background and history that we really really needed to know, it was very helpful. And she would always be open to any questions any time, and to be flexible if something interested us. Furthermore, she was always available to help us in and outside the class. She is a great professional.

5.3) Self-Evaluation (please comment on questions 4.11-4.16 above)

- I always read every play and I did every assignment so I was always prepared for the class. I really enjoy talking in class and sharing my thoughts so I felt confident and relaxed during this particular class.
- I feel I could have read more extra material outside the class to understand better the historic and sociopolitical matters of the time and how those were related to the plays. The teacher explained and talked about these topics every time we had doubts, but I have always struggled a lot with Spanish history.
- I have grown intellectually in this course and I am tempted to pursue my studies in the field
- I have improved in my writing skills, which for me was very important, since that is a main part in the Master. I also learn confidence talking in class, which I think I am improving as time goes by.
- I improve my understanding about El siglo de oro
- I think I gave this class a good effort and I have become very interesting in the subject since the class started. I think my analysis skills have improved greatly, and that I aspire to have a good grade. I made an effort to participate as much as I could and to be prepared.
- I think I have really improved my abilities to organize ideas when writing
- I think if I had more of a background in this type of literature I would have felt better and confident. The background information was very helpful though. I personally feel like I need a specific class that focuses on the timeline of Spanish literature.
- Personally I have acquired information about the stereotypes of minority groups that I didn't know before and this has shaped my viewpoint of life to a large extent.
